

MASTER'S DEGREE PROGRAMS

| | |
|----------|--|
| 5A150901 | Design (design of architectural environment) |
| 5A310902 | Metrology, standardization and quality management (construction) |
| 5A311502 | Geodesy and cartography (practical geodesy) |
| 5A320101 | Materials Science and materials technology (according to branches) |
| 5A340101 | Architecture of buildings and structures |
| 5A340102 | Theory and history of architecture, restoration of architectural monuments |
| 5A340103 | Urban planning and integrated development of rural settlements |
| 5A340104 | Landscape architecture |
| 5A340201 | Construction of buildings and structures (energy-saving buildings) |
| 5A340202 | Technology of the organization of construction (buildings and structures) |
| 5A340204 | Building structures, installation of engineering systems and special equipment |
| 5A340206 | Construction economics |
| 5A340302 | Urban transportation management and communications |
| 5A340401 | Water Supply, Sewerage, protection and rational use of water resources |
| 5A340403 | Heat, ventilation, air conditioning and air protection |
| 5A340901 | Assessment and management of real estate |
| 5A340503 | Geodesy and Geoinformatics (technology of ornamentation materials) |
| 5A340502 | Technology of facing and heat-insulating building materials |
| 5A340503 | Technology of ornamentation materials |
